## OBJECTIVE

Dedicated MERN Stack Developer with proficiency in crafting innovative solutions. Seeking to leverage technical expertise in dynamic web app development to contribute to the growth and success of a forward-thinking organization.

## EDUCATION

<b>Hierank Business School</b>	Noida, Uttar Pradesh
<i>Bachelor of Computer Applications (BCA)</i>	<i>Aug. 2020 – Aug 2023</i>

## EXPERIENCE

<b>JUNIOR SOFTWARE DEVELOPER</b>	Jan 2024 – Present
<i>Brain Technosys</i>	<i>Noida, Uttar Pradesh</i>
<ul style="list-style-type: none"><li>• <b>Solely developed the backend rest api for a project called Michelle a blue collar job portal.</b> My responsibilities encompassed designing and implementing API endpoints using Node.js, Express.js, and MongoDB, ensuring robust performance, and maintaining stringent security standards. Furthermore, I identified and resolved numerous bugs, significantly enhancing the platform's stability and overall user experience</li><li>• <b>Collaborated with the backend team to build "N-Again," a restaurant review system.</b> I developed the REST API from scratch, ensuring it met all requirements for performance, security, and scalability. I integrated Twilio and SendGrid for email and mobile OTP verification. Additionally, I implemented an auto-approval functionality for reviews based on receipt bills, among many other features.</li><li>• <b>Contributed to "Halal Guide" a restaurant management and food guide app :</b> using Node.js, Express, and MongoDB. I addressed API bugs, optimized API performance, and developed seamless features. These improvements enhanced the application's functionality and user experience, ensuring a more efficient and reliable platform for managing restaurant data</li></ul>	

## PROJECTS

<b>Chat app</b>   <i>React, Nodejs, Expressjs, Mongodb, WebSockets</i>	<a href="#">Link</a>
<ul style="list-style-type: none"><li>• Developed a full-stack web application using with Nodejs serving a REST API with React as the frontend</li><li>• Implemented WebSocket functionality to enable real-time communication between the client and server</li><li>• Implemented secure user authentication using JSON Web Tokens (JWT), and added functionality for users to update and delete their accounts. Also integrated private and group chat features.</li><li>• Integrated Cloudinary for image storage and management.</li></ul>	
<b>Ecommerce Wesbite</b>   <i>React, Nodejs, Expressjs, Mongodb</i>	<a href="#">Link</a>
<ul style="list-style-type: none"><li>• Developed a responsive e-commerce website using Node.js and React, optimized for all devices.</li><li>• Integrated Stripe payment gateways for secure transactions</li><li>• Implemented key functionalities including like Add-to-cart, Product search</li><li>• Implemented secure user authentication using JSON Web Tokens (JWT)</li></ul>	

## TECHNICAL SKILLS

**Languages:** Proficient in JavaScript (ES6+.)  
**Frontend Technologies:** HTML5, CSS3, React.js, Redux.js, Material UI  
**Backend Technologies:** Nodejs, Expressjs.  
**Database:** Mongodb.  
**Developer Tools:** Git, Postman, Visual Studio code.  
**Query Language:** GraphQL
